I'm a passionate Full Stack Developer with over 1+ years of experience, specializing in MERN and PERN stack development. I thrive in dynamic environments, leveraging my skills to build scalable web applications and deliver impactful solutions. Always eager to learn and grow, I aim to contribute to innovative projects that make a difference.

Work Experience

Software Engineer

Nov 2024 - Present

[SNS Square](#) | Coimbatore

Worked in a fast-paced startup environment for over 1+ years, gaining hands-on experience with the MERN and PERN stacks. Contributed to building scalable web applications by working across both frontend and backend development. Integrated technologies such as Elasticsearch for advanced search capabilities and RabbitMQ for reliable asynchronous communication.
